# PRESIDENTS MESSAGE 2022

Hi all, we are finally back after a 3-year hiatus due to, of course, the Covid pandemic. On behalf of myself & my very hardworking committee, we welcome everyone to the 115th Mullumbimby Agricultural Show. Our last show was held in 2019 during very eerie conditions because of the bushfires and the very dry, dusty conditions that were experienced. Then, of course, Mullumbimby was stricken by the biggest flood in history. As everyone knows, these past 3 years have been very challenging for all. Our meetings were still being held monthly and we were fortunate enough that all our committee were happy to stay onboard even though our shows were cancelled within only a couple of months prior to the due date of the show.

I am proud to say that all Committee members support me to enable the 115th show to roll on. The flood of February this year caused major damage to the showground and the Committee along with others have managed to bring it back to pristine condition.

The Committee tries to vary the entertainment each year, so hopefully, there will be something for all to enjoy. We also bring back the truck parade through town to the showgrounds on the Saturday morning. We then have all the country show highlights including trotting displays, cattle, show jumping & show horses, poultry, pavilion, sideshow alley etc. The Theme for the main pavilion this year is The Bee. There will be bands on the main stage in the afternoons and to end Saturday there will be a fireworks display. Sunday's entertainment will include Chainsaw post cutting, FMX Kaos motorbike spectacular, lawnmower race and a demolition derby. There will also be a talent quest and music on the main stage once again.

I need to finish this on the highest note by thanking all our wonderfully generous sponsors from all around our district. Without you all, the show cannot go on.

Thank you so very much

*Mark Ward*

This years Pavilion Theme is Honey Bees. These miracle workers play a big part in pollinating close to 75% of the world's crop producing fruit and seeds for human consumption depend on pollinators for sustained production, yield and quality.

In the past honey was only considered a sweetener, whereas today, we know that it contains many beneficial substances. It is an excellent nutrient and calmativ. Owing to it's antibacterial and antioxidant properties.

Honey does not require additional processing and a beekeeper does not add anything nor take anything away from it. While mature honey loses some of it's nutritional value, it still remains a superior sweetener for many decades, especially compared to plain sugar.

Honey can be mixed into different drinks, for example tea, milk, yoghurt or natural juices. It can be added to various baked or cooked dishes (cakes, sauces, vegetables, meats), usually to infuse them with it's special aroma.

So get buzzing and lets see what you can create with your honey.
